Colonial Trauma Karima Lazali, 2021-01-22 Colonial Trauma is a path-breaking account of the psychosocial effects of colonial domination. Following the work of Frantz Fanon, Lazali draws on historical materials as well as her own clinical experience as a psychoanalyst to shed new light on the ways in which the history of colonization leaves its traces on contemporary postcolonial selves. Lazali found that many of her patients experienced difficulties that can only be explained as the effects of “colonial trauma” dating from the French colonization of Algeria and the postcolonial period. Many French feel weighed down by a colonial history that they are aware of but which they have not experienced directly. Many Algerians are traumatized by the way that the French colonial state imposed new names on people and the land, thereby severing the links with community, history, and genealogy and contributing to feelings of loss, abandonment, and injustice. Only by reconstructing this history and uncovering its consequences can we understand the impact of colonization and give individuals the tools to come to terms with their past. By demonstrating the power of psychoanalysis to illuminate the subjective dimension of colonial domination, this book will be of great interest to anyone concerned with the long-term consequences of colonization and its aftermath.

Bag Lady Lisa D. Foster, 2022-04-29 A billion plastic bags a day. That's how many bags Americans were throwing away in 2005 when Lisa D. Foster first switched to reusable bags. The impacts of all those bags on our environment and our taxes kept her up at night. It was wrong. Morally wrong. She believed that if American shoppers knew what she knew, they would switch to reusable bags too. So, she did what any good English teacher would do. She took the facts about bags and turned them into a story. Over the next 12 years, that story transformed Lisa into the Bag Lady, an eco-entrepreneur on a mission to save the world one reusable bag at a time. Because she was driven by purpose, she did a lot of things right. She sold a quarter of a million reusable bags her first year, 2 million her second year, and 8 million her third year. Each reusable bag had the potential to replace a thousand single-use bags, collectively eliminating billions of plastic bags. Lisa also did a lot of things wrong. One out of ten startups fail, and odds are worse for people like her with no business experience or training. In the end, she built a thriving company, disrupted the plastic bag industry and changed the way America shops. It was a wild ride.
