Oh No She Didn't Clinton Kelly, 2010-10-12 Muffin tops. Scrunchies. Suntan hose. Slut shoes. Visible panty line. Who hasn't had the unfortunate experience of witnessing—or (gasp!) actually wearing—one of these fashion disasters? The atrocities Clinton Kelly has seen—it's a surprise he hasn't gouged out his own eyes. Mom jeans? Fancy fingernails? Tracksuits? In the same straight-talking style that has made TLC's *What Not to Wear* a smash hit for eight seasons, the cheeky media personality and author of *Freakin' Fabulous* shows women how to outfit themselves with confidence and style as he pokes fun at fashion don'ts. From the most obvious faux pas (Texas tuxedos) to borderline offenses (peekaboo boobies), Clinton offers detailed and entertaining critiques of our top one hundred sartorial slip-ups. He turns his keen eye to wardrobe, color, cut, cleanliness, hairstyle, accessories, and even posture. And because he loves you, he presents easy alternatives and practical suggestions for creating fabulous outfits that will make you forget you ever wore socks with clogs. Clinton also explains how to use trends to your advantage at any age, from deciding which ones work for you to understanding how to wear them to keep your look relevant. Because if you're not comfortable in the sequined mini, everyone around you will know it. A delightful mix of hilarious dish and expert fashion advice, *Oh No She Didn't* will turn anyone from fashion victim to fashionista in no time.

Women on Top Nancy Friday, 2014-02-07 A classic work on how women think about sex, from the New York Times-bestselling author of *My Secret Garden* and *My Mother/Myself*. Nancy Friday's groundbreaking books such as *Forbidden Flowers* offered an unprecedented honest look at the inner fantasy lives of ordinary women. In *Women on Top*, Friday returns to this topic, collecting detailed sexual fantasies from over 150 contemporary women from diverse

backgrounds. Based on intimate personal interviews and letters, this book updates the conversation started in her earlier works on women's sexual fantasies, detailing how women's erotic lives have changed—and remained the same. “This absorbing, titillating and empowering feminist book is also a ribald bedside companion.” —Publishers Weekly

Advice from the Top Valencia Campbell, 2009-05-19 Minority women who have made it to the top offer tips and advice to others who wonder what it takes to succeed in careers in both the for-profit and nonprofit worlds. But this book goes beyond the usual superficial profiles of women achievers. Rather, it shares their views on what constitutes success, the factors they consider important to their success, and the obstacles they encountered and overcame. The book also provides concrete action steps designed to help readers vault the hurdles encountered by the women profiled, and to do so with aplomb. And it offers insider advice on how to overcome bias to reach goals. Perhaps most important, *Advice from the Top* will inspire minority women who want to advance their careers, leaving a lasting legacy for all those who care about improving the status of women in our society.

Women at the Top Mimi Wolverton, Beverly L. Bower, Adrienne E. Hyle, 2023-07-03 Although much has been written about leaders and leadership, we unfortunately know little about the women who fill this particular role. This book—the first in a series that explores women leaders in different contexts—remedies this gap by presenting the reflections of nine women community college, college, and university presidents on what they see as key tenets of leadership, illuminated by pivotal events in their careers. These presidents know the power of words, and in telling their stories through these interviews with the authors, they let us know who they are, what their visions are, and what they value. While they express some differences in their emphases on particular leadership characteristics, they show remarkable unanimity in their beliefs as to which are the most important—competence, credibility, and communication. The participants discuss the growing opportunities for women in higher education administration, without minimizing the barriers that still exist, nor the potential for backlash against powerful and assertive women. They stress the need for women to be very careful about making the correct choices for themselves; to balance personal life and work; and to appropriately prepare for leadership. This book both breaks new ground, and offers guidance for women who aspire to positions of leadership—in any field of endeavor. The Presidents: Gretchen M. Bataille, University of North Texas, Denton, Texas Barbara Douglass, Northwestern Connecticut Community College, Winsted, CT Mildred García, California State University, Dominguez Hills Carol C. Harter, University of Nevada, Las Vegas Mamie Howard-Golladay, Sullivan County Community College, Loch Sheldrake, NY Martha T. The Series: Pathways to Leadership is a series about successful women who have reached the pinnacle of their careers. Women at the Top Marianne Coleman, 2011-05-13 The authentic voices of sixty successful women, identify the challenges that they have faced in their careers and the ways in which they have overcome them. These include a male work culture and reconciling the demands of work and family. The 'glass ceiling' may have moved up a little, but it is still there.

Hope Unseen Scotty Smiley, Doug Crandall, 2010-09-14 The inspiring, unflinching true story of “blind” faith, as Major Scotty Smiley awakes in a hospital bed and realizes his world is permanently dark he must stretch his faith like never before. Courageous, heartfelt, and honest, *Hope Unseen* challenges readers to question their doubts, not their beliefs, and depend upon God no matter what. A nervous glance from a man in a parked car. Muted instincts from a soldier on patrol. Violent destruction followed by total darkness. Two weeks later, Scotty Smiley woke up in Walter Reed Army Medical Center, helpless . . . and blind. Blindness became Scotty's journey of supreme testing. As he lay helpless in the hospital, Captain Smiley resented the theft of his dreams—becoming a CEO, a Delta Force operator, or a four-star general. With his wife Tiffany's love and the support of his family and friends, Scotty was transformed—the injury only intensifying his indomitable spirit. Since the moment he jumped out of a hospital bed and forced his way through nurses and cords to take a simple

shower, Captain Scotty Smiley has climbed Mount Rainier, won an ESPY as Best Outdoor Athlete, surfed, skydived, become a father, earned an MBA from Duke, taught leadership at West Point, commanded an army company, and won the MacArthur Leadership Award. Scotty and Tiffany Smiley have lived out a faith so real that it will inspire you to question your own doubts, push you to serve something bigger than yourself, and encourage you to cling to a Hope Unseen.

Too Few Women at the Top Kumiko Nemoto, 2016-09-15 The number of women in positions of power and authority in Japanese companies has remained small despite the increase in the number of educated women and the passage of legislation on gender equality. In *Too Few Women at the Top*, Kumiko Nemoto draws on theoretical insights regarding Japan's coordinated capitalism and institutional stasis to challenge claims that the surge in women's education and employment will logically lead to the decline of gender inequality and eventually improve women's status in the Japanese workplace. Nemoto's interviews with diverse groups of workers at three Japanese financial companies and two cosmetics companies in Tokyo reveal the persistence of vertical sex segregation as a cost-saving measure by Japanese companies. Women's advancement is impeded by customs including seniority pay and promotion, track-based hiring of women, long working hours, and the absence of women leaders. Nemoto contends that an improvement in gender equality in the corporate system will require that Japan fundamentally depart from its postwar methods of business management. Only when the static labor market is revitalized through adoption of new systems of cost savings, employee hiring, and rewards will Japanese women advance in their chosen professions. Comparison with the situation in the United States makes the author's analysis of the Japanese case relevant for understanding the dynamics of the glass ceiling in U.S. workplaces as well.

Typology of career paths of international Top Women Managers - Global orientation pattern for qualified women in management Bettina Al-Sadik-Lowinski, 2021-05-25 (English below) Fünf Karrieremuster für Frauen im Senior Management: Bounded – Unbounded global – Stop and Go – Flexible hoppers – Lean on and move up Fünf Karrieretypen sind Ergebnis einer wissenschaftlichen internationalen Untersuchung mit Frauen im Topmanagement. Die Untersuchung zeigt, dass die Mehrheit der Topmanagerinnen aus verschiedenen Nationen ihre Karrieren durch lokale Unternehmenswechsel oder den globalen Wechsel von Arbeitgebern aufbaut. Es gibt für Managerinnen weltweit nicht nur ein Karrieremuster oder den einen richtigen Karrierepfad. Von den fünf Karrieretypen, die hier beschrieben werden, dominieren drei. Karrieremuster, bei denen familiäre Entscheidungen im Mittelpunkt stehen, sind in dieser internationalen Studie nur bei 17 % der Frauen der Stop-and-Go Gruppe vorherrschend. Die Mehrheit der Frauen verfolgen ungebundene und globale Karrieren, die sich durch viele

Unternehmenswechsel beschreiben lassen. Die weiblichen Rollenvorbilder für den Aufstieg im Management besitzen eine starke Karriereorientierung, verfolgen eigenverantwortliche Karrieren und ordnen andere Lebensrollen ihrer primären Rolle als Managerin unter. Gerade weil Frauen weltweit im gehobenen Management weiterhin in der Minderheit sind, können die Karrierewege und Karrieremuster von erfolgreichen Frauen, die bereits die Spitzen von Unternehmen erreicht haben, andere Frauen inspirieren und sie darin unterstützen, ihre Karrieren strategischer zu planen. Karrieretypologien, die die Karrierewege und -muster von erfolgreichen Frauen im Management systematisieren, können Frauen als Orientierungsmodelle dienen, um eigene Karriere Entscheidungen und Planungen auf der Basis der Erkenntnisse von Rollenmodellen vorzunehmen oder diese als Reflexionsrahmen, zum Beispiel im Rahmen eines Exekutive Coachings zu nutzen. Five patterns of women in senior management: Bounded – Unbounded global – Stop and Go – Flexible hoppers – Lean on and move up Women worldwide are still often the minority in top management so the career paths and patterns of successful role models can offer guidance and real inspiration for other women. Career typologies of women in senior management functions can support other women when they set their career plans and need to make decisions. One outcome of the international research driven from the Global Women Career Lab is an intercultural career typology of top women managers in various countries, which offers valuable insights into women strategies for building careers. The typology analysis role model focuses on how women who achieved top management positions around the world built their careers and the characteristics go with it. The analysis describes the five career types which were most frequent in the research group. Different to the handful of existing typologies for women in management, more than 80 % of the women researched here show patterns and paths where career decisions are not made with a focus on family or other external conditions. Most women have pursued an unbounded career, often globally and changing employers in order to rise up the corporate hierarchy. Experienced coaches can use the Global Women Career Lab typology to stimulate reflection on career decisions and shed light on the choices of women in management levels. The typology also shows HR experts that talented women chose companies according to the opportunities they offered for women to rise in senior management.
