American Sniper Chris Kyle, Scott McEwen, Jim DeFelice, 2012-01-03 The #1 New York Times bestselling memoir of U.S. Navy SEAL Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. "An amazingly detailed account of fighting in Iraq—a humanizing, brave story that's extremely readable." —PATRICIA CORNWELL, New York Times Book Review Jaw-dropping...Undeniably riveting. —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

Desert Solitaire Amy Irvine, 2018-11-06 Amy Irvine implores us to trade in our solitude for solidarity, to recognize ourselves in each other and in the places we love, so that we might come together to save them. —PAM HOUSTON As Edward Abbey's *Desert Solitaire*: A Season in the Wilderness turns fifty, its iconic author, who has inspired generations of rebel-rousing

advocacy on behalf of the American West, is due for a tribute as well as a talking to. In *Desert Cabal: A New Season in the Wilderness*, Amy Irvine admires the man who influenced her life and work while challenging all that is dated—offensive, even—between the covers of Abbey’s environmental classic. From Abbey’s quiet notion of solitude to Irvine’s roaring cabal, the desert just got hotter, and its defenders more nuanced and numerous.

The Survival Medicine Handbook Joseph Alton, Amy Alton, 2013 Are you prepared to deal with medical issues in a disaster or epidemic if the ambulance is heading in the OTHER direction? What if YOU were the end of the line when it came to your family's health and well-being--Page 4 of cover.

The Shock Doctrine Naomi Klein, 2010-04-01 The bestselling author of *No Logo* shows how the global free market has exploited crises and shock for three decades, from Chile to Iraq In her groundbreaking reporting, Naomi Klein introduced the term disaster capitalism. Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic shock treatment, losing their land and homes to rapid-fire corporate makeovers. The Shock Doctrine retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

The Nature Fix: Why Nature Makes Us Happier, Healthier, and More Creative Florence Williams, 2017-02-07 Highly informative and remarkably entertaining. —Elle From forest trails in Korea, to islands in Finland, to eucalyptus groves in California, Florence Williams investigates the science behind nature’s positive effects on the brain. Delving into brand-new research, she uncovers the powers of the natural world to improve health, promote reflection and innovation, and strengthen our relationships. As our modern lives shift dramatically indoors, these ideas—and the answers they yield—are more urgent than ever.

The Five Continents of Theatre Eugenio Barba, Nicola Savarese, 2019-02-11 *The Five Continents of Theatre* undertakes the exploration of the material culture of the actor, which involves the actors’ pragmatic relations and technical functionality, their behaviour, the norms and conventions that interact with those of the audience and the society in which actors and spectators equally take part.

The Competitive Advantage Michael E Krivdo, Robert M Toguchi, 2019-05-23 Volume 8 of the Army University Large

Scale Combat Operations series. The Competitive Advantage: Special Operations Forces in Large Scale Combat Operations presents twelve historical case studies of special operations forces from World War I through Operation Iraqi Freedom. This volume sheds light upon the emerging roles, missions, and unique capabilities that have forged a path for Army Special Operations Forces today. These case studies set Large Scale Combat Operations in the center and place ARSOF's role in the forefront. If a reader were to take one piece from this volume, it would be the clear understanding of the close synergy that occurs between the Conventional Force and SOF in Large Scale Combat Operations for major wars in the 20th and early 21st century. That synergy should provide a broad azimuth for military planners and practitioners to follow as the Army, SOF, and the Joint Force combine to preserve the peace, defend the Nation, and defeat any adversary.

A Lineage of Grace Francine Rivers, 2012-11-21 The complete biblical historical fiction compilation by the New York Times bestselling author of Redeeming Love and A Voice in the Wind. The Bible is filled with inspiring stories of unlikely candidates God chose to change eternity. This bestselling compilation in one volume contains five novellas about such people—women in the family tree of Jesus Christ. Tamar. Rahab. Ruth. Bathsheba. Mary. Each was faced with extraordinary—even scandalous—challenges. But they had courage. They lived daring lives. Sometimes they made mistakes—big mistakes. And yet God, in His infinite mercy, used them to bring forth the Christ, the Savior of the world. Their stories still hold great meaning and inspiration for us today. Tamar risked her life and her reputation to be the woman she was called to be. See how God uses our circumstances and our steps toward Him, however faltering, to fulfill His plan. Rahab was exploited by men who saw only her beauty, yet she held fast to her faith in God and was rewarded. Discover how God seeks and finds those whose hearts are tender toward Him, no matter how far away they are. Ruth's loyalty, especially toward her mother-in-law Naomi, helped her to persevere in the face of tragedy, and God gave her a second chance at love. Be encouraged that God will provide even when all hope seems lost. Bathsheba's scandalous affair with David did not end in one night. Learn that God is willing to restore those lost in the depths of despair who call out to Him. Mary is one of the most revered women in history. But first, she was an ordinary woman striving to please God in the same way that women still do today. When God spoke, Mary responded in obedience which changed the world forever. Each novella includes an in-depth Bible study perfect for personal reflection or group discussion.

Individual-based Modeling and Ecology Volker Grimm, Steven F. Railsback, 2013-11-28 Individual-based models are an exciting and widely used new tool for ecology. These computational models allow scientists to explore the mechanisms through which population and ecosystem ecology arises from how individuals interact with each other and their environment. This book provides the first in-depth treatment of individual-based modeling and its use to develop theoretical understanding of how ecological systems work, an approach the authors call individual-based ecology. Grimm and Railsback start with a general primer on modeling: how to design models that are as simple as possible while still allowing specific problems to be

solved, and how to move efficiently through a cycle of pattern-oriented model design, implementation, and analysis. Next, they address the problems of theory and conceptual framework for individual-based ecology: What is theory? That is, how do we develop reusable models of how system dynamics arise from characteristics of individuals? What conceptual framework do we use when the classical differential equation framework no longer applies? An extensive review illustrates the ecological problems that have been addressed with individual-based models. The authors then identify how the mechanics of building and using individual-based models differ from those of traditional science, and provide guidance on formulating, programming, and analyzing models. This book will be helpful to ecologists interested in modeling, and to other scientists interested in agent-based modeling.

Bible of the Oppressed Elsa Tamez, 2006-02-02 Why haven't we North American biblical scholars done such a systematic study of the words for oppression in the Bible? If the answer is that we who possess the critical skills are not ourselves oppressed or identified with communities of the oppressed, then it becomes imperative that we listen all the more carefully to these voices from the South. -- Walter Wink, Professor Emeritus of Biblical Interpretation, Auburn Theological Seminary, New York This book is a welcome addition to a growing body of evidence that the Bible is a book about social justice for the oppressed of the land and that this indeed is the good news. -- Marie Augusta Neal, SND de Namur, author of *A Socio-Theology of Letting Go* Elsa Tamez's book attracts our attention, not only for wrestling with a major biblical theme but also for keeping us in continuous contact with the text of the Bible. -- Carroll Stuhlmueller, CP, general editor of *The Collegeville Pastoral Dictionary of Biblical Theology* A careful and creative interdisciplinary study in biblical theology, Old Testament, and social ethics. Elsa Tamez's work has contributed to the church in Latin America and is now available as a readable, important resource for the English-speaking church. -- Jane Cary Peck and Carole Fontaine, Andover Newton Theological School Writing from a perspective of those oppressed by poverty and sexism, Elsa Tamez has brought us a wealth of analysis of the biblical understanding of oppression. -- Letty M. Russell, Professor Emeritus, Yale Divinity School Elsa Tamez is the author of *'Through Her Eyes'* (Wipf & Stock reprint, 2006), *'Jesus and Courageous Women'* (2001), and coeditor of *'The Discourse of Human Dignity'* (2003).

International Business and Tourism Tim Coles, C. Michael Hall, 2008-02-13 Whether it's bungee jumping in Queenstown or visiting the Guinness factory in Dublin, where we travel - and what we do when we get there - has changed significantly in the past twenty years. This innovative textbook explores what is possibly the most unrecognized of international service industries, placing tourism in the context of contemporary globalization and trade-in services. It provides new perspectives on tourism as a form of international business, and the implications for firms, the state and individuals. Split into four separate sections, with introductions outlining the key themes in each, it examines important topics such as: the role of governance and regulation in tourism services the effects of increased global mobility on tourism entrepreneurship how tourism businesses are becoming internationalized why other business sectors are increasingly interested in tourism. Case studies are used throughout to highlight important issues, from developments in the aviation industry to the rise of working holidays. This book gets to the core of a crucial service industry, and is essential reading for any researcher or student of tourism or international business.

The Future of the Bamiyan Buddha Statues Masanori Nagaoka, 2020-12-07 This Open Access book explores heritage conservation ethics of post conflict and provides an important historical record of the possible reconstruction of the Bamiyan Buddha statues, which was inscribed in the UNESCO World Heritage List in Danger in 2003 as "Cultural Landscape and Archaeological Remains of the Bamiyan Valley". With the condition that most surface of the original fragments of the Buddha statues were lost due to acts of deliberate destruction, this publication explores a reference point for conservation practitioners and policy makers around the world as they consider how to respond to on-going acts of destruction of cultural heritage. Whilst there has been an emerging debate to the ethics and nature of heritage reconstruction, this volume provides a plethora of ideas and approaches concerning the future treatment of the Bamiyan Buddha statues. It also addresses a number of fundamental questions on potential heritage reconstruction: how it will be done; who will decide; and what it should be done for. Moreover when it comes to the inscribed World Heritage properties, how can reconstructed heritage using non-original materials be considered to retain authenticity? With a view to serving as a precedent for potential decisions taken elsewhere in the world for cultural properties impacted by acts of violence and destruction, this volume introduces academic researches, experiences and observations of heritage conservation theory and practice of heritage reconstruction. It also addresses the issue not merely from the point of a material conservation philosophy but within the context of holistic strategies for the protection of human rights and promotion of peace building.

Life in a Corner Robert S. McPherson, 2015-04-27 Community building in the Four Corners area of southeastern Utah required specialized knowledge and a good bit of determination on the part of settlers who wrested a livelihood from the Colorado Plateau. Robert S. McPherson, the region's leading historian, draws on oral history and personal archives to write about cowboys and homesteaders, loggers and sawmill operators, law enforcement officers and bootleggers, miners and midwives, trappers and builders. In *Life in a Corner*, he shapes their stories into a fascinating mosaic of cultural and environmental history unique to this region. McPherson demonstrates that, above all, settlers worked hard in order to succeed in this often forbidding land. A first-person account of erecting a Latter-day Saint tabernacle tells of volunteers using only what was under their feet or came from a nearby mountain. Other chapters give an insider's perspective on cowboying in canyon country, bringing law and order to a virtually lawless land, waging war against wolves and coyotes, and homesteading on some of the last large desert tracts in the continental United States. But the most gripping stories center on the ingenuity of those who lived these personal experiences. Only a veteran trapper would think of burying an alarm clock to attract a coyote. Only a determined bootlegger would devise a saddle made of leather-covered copper equipped with a spigot to dispense moonshine by the cup. Only committed, or desperate, miners would sail with a one-way "ticket" to a gold field in a hidden desert chasm. What were midwives being taught at the turn of the century, and how did their practice involve equal parts religious doctrine and medical procedure? What was a qualifying examination like for the first forest rangers? And how did small close-knit communities handle "slackers" during World War I? *Life in a Corner* answers these and many other questions while offering fresh perspectives on past events and current controversies.
