*The Impossible Collection of Jewelry* Vivienne Becker, 2013-02-01 In this magnificent collection of the most spectacular jewels of the twentieth century, fine jewelry historian Vivienne Becker selects the quintessential bijoux that represent the milestones of jewelry design of the last one hundred years. From Art Nouveau to the brink of the new millennium, Becker's selections range from the Wiener Werkstätte and Tiffany Studios, Egyptian-inspired Art Deco masterpieces by Cartier and midcentury designs by Verdura for Chanel, exquisite creations by DeBeers, Van Cleef & Arpels, and Graff, to modern designs from a new generation of innovative artists. A new addition to Assouline's Ultimate Collection, this beautiful volume is a must-have for fine jewelry collectors and lovers of precious objects. Sparkling with stunning photography, this hand-bound luxury limited edition features hand-tipped images and is presented in a linen clamshell case.

**Brilliance!** Cindy Edelstein, Frank Stankus, 2008 This sensational design book showcases America's most gorgeous and inventive art jewelry! For over a decade, the elite invitation-only American Jewelry Design Council (AJDC) has sponsored an annual project: every member creates an original piece based on a given theme. With imagination and skill, jewelers have tackled such concepts as the Mona Lisa, Wheel, Key, Puzzle, Water, Flight, Peekaboo, Sphere, Pyramid, and Secret Treasure. Each of these topics now becomes a dramatically photographed chapter, complete with illuminating introductions by renowned jewelry writers Cindy Edelstein and Frank Stankus. In addition to background information on the AJDC, and the story of the annual design event, artists' commentaries enhance specific images. A final members' section includes a biography, headshot, and additional jewelry images for each talented individual.

Create Three Dimensional Jewelry Heather DeSimone, 2014-03-11 Inspired by the craftsmanship and attention to detail of early costume jewelry, Heather DeSimone demonstrates how to create fun, one-of-a-kind pieces by teaching techniques for layering readily available components in *Create Three Dimensional Jewelry*. Jewelry makers will learn how to layer premade components, make beaded clusters, create beaded loops, weave seed beads, embellish filigree components, rivet stamped metal pieces, and more as they create 21 unique projects. Most importantly, mastering this three-dimensional approach to "building" jewelry teaches designers to think about using their materials in a new way.

**Maker and Muse** Elyse Zorn Karlin, 2015-02-10 A new perspective on woman's role in the world of art jewelry at the turn of the twentieth century—from Art Nouveau in France and the Arts and Crafts movement in Britain, to Jugendstil in

Germany and Austria, Louis Comfort Tiffany in New York, and American Arts and Crafts in Chicago—and the most extensive survey to date of the sheer diversity and beauty of art jewelry during this period. Accompanying a groundbreaking exhibition at The Richard H. Driehaus Museum in Chicago, this lavishly illustrated catalog showcases nearly two hundred stunning pieces from the Driehaus Collection and prominent national collections, many of which have never been seen by the public. Women were not only the intended wearers of art jewelry during the early twentieth century, but also an essential part of its creation. Their work—boldly artistic, exquisitely detailed, hand wrought, and inspired by nature—is now widely sought after by collectors and museums alike. From the world’s first independent female jewelry makers, to the woman as artistic motif, this jewelry reflected rapid changes in definitions of femininity and social norms. Essays by noted scholars explore five different areas of jewelry design and fabrication, and discuss the important female figures and historic social milieu associated with these movements—from the suffragists and the Rational Dress Society in England; to the Wiener Werkstätte and Gustav Klimt; and the Art Nouveau masters René Lalique and Alphonse Mucha, who depicted otherworldly women in jewelry for equally fascinating patrons like Sarah Bernhardt. The essays are illustrated by historic photographs and decorative arts of the period as well as the extraordinary pieces themselves: hair combs, bracelets, brooches, and tiaras executed in moonstones, translucent horn, enamel, opals, aquamarines, and much more. As Driehaus writes in his introduction to *Maker & Muse*, “Essential as these elements are, the metal and gemstones of a necklace—or a brooch or a bracelet—are like a canvas. It is the designer who evokes true greatness, beauty, and value from them. Neither monumental nor mass-produced, the object contains a memory of a particular artist’s skilled hand.”

*Looking at Jewelry* Susanne Gänsicke, Yvonne J. Markowitz, 2019-06-25 What is a cabochon? What are the various types of gilding? What is vermeil? This accessible book—the first of its kind—offers concise explanations of key jewelry terms. The fascination with personal adornment is universal. It is a preoccupation that is primal, instinctive, and uniquely human. Jewelry encompasses a seemingly endless number of ornaments produced across time and in all cultures. The range of materials and techniques used in its construction is extraordinary, even revolutionary, with new substances and methods of fabrication added with every generation. In any given society, master artisans have devoted their time, energy, and talent to the fine art of jewelry making, creating some of the most spectacular objects known to humankind. This volume, geared toward jewelry makers, scholars, scientists, students, and fashionistas alike, begins with a lively introduction that offers a cultural history of jewelry and its production. The main text provides information on the most common, iconic, and culturally significant forms of jewelry and also covers materials, techniques, and manufacturing processes. Containing more than eighty color illustrations, this guide will be invaluable to all those wishing to increase their understanding and enjoyment of the art of jewelry.

*Jewelry & Gems The Buying Guide* Antoinette Matlins, 2012-12-06 to this edition In working with my own clients to

acquire gemstones and jewelry since this book was first published in 1984, they have pointed out that most people buy jewelry and not gemstones. Because the book offers so much practical advice and money-saving tips about buying jewelry, they urged me to change the title. So, in this edition *The Complete Guide to Buying Gems* has been changed to *Jewelry & Gems: The Buying Guide*. Consumer and professional response to the book has been very gratifying. Almost 14,000 hardcover copies are in circulation. We have received hundreds of letters, phone calls and in-person comments about the helpfulness and interesting information it provides. We thank you for encouraging us to make the book more widely available by bringing out this softcover edition. We have taken the opportunity of this softcover edition to update the price guides for diamonds and colored gemstones and, in light of the increase in both the popularity and price of pearls, to add a price guide for them in the *Guide to Popular Gems and Their Prices*. Also, we want to take this opportunity to comment further on gem investment, taking into account major developments since the original manuscript was written in 1980.
