Make Me Hot Marissa Monteilh,2008-02-26 Morgan Bayley has always had a distinctive look. As a girl she was painfully thin, gawky and insecure enough to be seduced by the first boy who showed her attention. This one encounter left her a teenage mother. But now, at 39, she has a fulfilling career, a nice home and a successful daughter, but she still struggles with her self-esteem. When Morgan's best friend enters her in a TV makeover show, Morgan refuses to participate, but when she discovers her boyfriend has been logging on to beautifulgirls.com, she changes her mind and the transformation begins...

Children's Fantasy Literature Michael Levy,Farah Mendlesohn,2016-04-16 Fantasy has been an important and much-loved part of children's literature for hundreds of years, yet relatively little has been written about it. Children's Fantasy Literature traces the development of the tradition of the children's fantastic - fictions specifically written for children and fictions appropriated by them - from the sixteenth to the twenty-first century, examining the work of Lewis Carroll, L. Frank Baum, C. S. Lewis, Roald Dahl, J. K. Rowling and others from across the English-speaking world. The volume considers changing views on both the nature of the child and on the appropriateness of fantasy for the child reader, the role of children's fantasy literature in helping to develop the imagination, and its complex interactions with issues of class, politics and gender. The text analyses hundreds of works of fiction, placing each in its appropriate context within the tradition of fantasy literature.

I'm a Writer Iron Clan Press,2019-03-06 I'm A Writer Journal gives writers a place write the story that has been hounding them since it popped into their head...am I right? This 173 page journal gives the writer a place to describe their characters, outline, or write their novel...with a few pages thrown in for doodling. We all got to take a break sometime. May the words flow, the pen never run out of ink, and the next great novel be yours!

Physiology and Pathophysiology of Temperature Regulation Clark M. Blatteis,1998 This is a user-friendly monograph designed for medical students as well as graduate students and postdoctoral trainees in medicine and other health-related sciences who need a comprehensive overview of thermoregulation. It presents the bases of the modern concepts in thermal physiology and pathophysiology, bringing together the disciplines encompassed by this highly integrative

field ? physiology, anatomy, biophysics, molecular and cellular biology, pharmacology, neuroscience, pathology, medicine, and others ? into a clear and concise form that can be read comfortably in a relatively short time. This text was conceived by the Commission on Thermal Physiology of the International Union of Physiological Sciences in response to its concern over the inadequate and outdated coverage of this topic in traditional textbooks. The membership of this Commission comprises international experts in each of the subfields of thermal physiology, with extensive research and teaching experience in their respective specialties. They are the authors of the chapters of this indispensable textbook.

Mirror Mirror 2 Sean T. Collins, Julia Gfrörer, 2017 2dcloud's flagship anthology returns, shifting focus to comics that explore horror, sex, the Gothic, and the Abject.

Approaches to Measuring Linguistic Differences Lars Borin, Anju Saxena, 2013-10-14 The present volume collects contributions addressing different aspects of the measurement of linguistic differences, a topic which probably is as old as language itself but at the same time has acquired renewed interest over the last decade or so, reflecting a rapid development of data-intensive computing in all fields of research, including linguistics.

Liberia Joseph Njoh, 2007

Man of Constant Sorrow Ralph Stanley, Eddie Dean, 2009-10-15 A giant of American music opens the book on his wrenching professional and personal journeys, paying tribute to the vanishing Appalachian culture that gave him his voice. He was there at the beginning of bluegrass. Yet his music, forged in the remote hills and hollows of Southwest Virginia, has even deeper roots. In *Man of Constant Sorrow*, Dr. Ralph Stanley gives a surprisingly candid look back on his long and incredible career as the patriarch of old-time mountain music. Marked by Dr. Ralph Stanley's banjo picking, his brother Carter's guitar playing, and their haunting and distinctive harmonies, the Stanley Brothers began their career in 1946 and blessed the world of bluegrass with hundreds of classic songs, including "White Dove," "Rank Stranger," and what has become Dr. Ralph's signature song, "Man of Constant Sorrow." Carter died in 1966 after years of alcohol abuse, but Dr. Ralph Stanley carried on and is still at the top of his game, playing to audiences across the country today at age eighty-one. Rarely giving interviews, he now grants fans the book they have been waiting for, filled with frank recollections, from his boyhood of dire poverty in the Appalachian coalfields to his early musical success with his brother, to years of hard traveling on the road with the Clinch Mountain Boys, to the recent, jubilant revival of a sound he helped create. The story of how a musical art now popular around the world was crafted by two brothers from a dying mountain culture, *Man of Constant Sorrow* captures a life harmonized with equal measures of tragedy and triumph.

Glamour, 2004

In Your Face Mario Testino, 2015 From studio to backstage to after-party, from royals to mega-celebrities, nobody captures the elusive and exclusive like Mario Testino. To compliment his travelling exhibition of the same title, this

handpicked retrospective gathers 120 of the daring, intimate and provocative images that have secured his place as the premier photographer of glamor. Spanning 30 years of Testino's high-flying career, these carefully curated images range from formal portraits to sexually charged snapshots, from advertising campaigns to autobiographical photos. Saturated with energy, color and seduction, they are a testament to Testino's unique style and intuitive ability to capture the evocative moment and emotional connection, even with such international superstars as Kate Moss, Gisele Bundchen, Brad Pitt, Nicole Kidman, Mick Jagger, Madonna, Lady Gaga, and David Beckham.

Dwelling, Seeing, and Designing David Seamon, 1993-01-01 This volume focuses on the question of how people might see and understand the natural and built environments in a deeper, more perceptive way. Why are places important to people, and can designers and policy-makers create better places? Contributors include architects, philosophers and architects.

Growing Green Guide Victoria. Department of Environment and Primary Industries, 2014 The information published in this guide is provided by the Growing Green Guide partners (City of Melbourne, City of Stonnington, City of Yarra, City of Port Phillip, the State of Victoria and The University of Melbourne) to disseminate information in regards to the design, construction and maintenance of green roofs, walls and facades.

The Private Sector in Development Michael U. Klein, Bita Hadjimichael, 2003-01-01 The publication explores the role of the private sector in economic development and the challenges involved in the design of public policies which promote an appropriate balance between competition and regulation. Chapters discuss the following topics: the private sector and poverty reduction, the investment climate, public intervention to promote supply response, private participation and markets for basic services, pro-poor policy design, sustainability and reform aspects.

Living Architecture Graeme Hopkins, Christine Goodwin, 2011-05-16 Extensively illustrated with photographs and drawings, *Living Architecture* highlights the most exciting green roof and living wall projects in Australia and New Zealand within an international context. Cities around the world are becoming denser, with greater built form resulting in more hard surfaces and less green space, leaving little room for vegetation or habitat. One way of creating more natural environments within cities is to incorporate green roofs and walls in new buildings or to retrofit them in existing structures. This practice has long been established in Europe and elsewhere, and now Australia and New Zealand have begun to embrace it. The installation of green roofs and walls has many benefits, including the management of stormwater and improved water quality by retaining and filtering rainwater through the plants' soil and root uptake zone; reducing the 'urban heat island effect' in cities; increasing real estate values around green roofs and reducing energy consumption within the interior space by shading, insulation and reducing noise level from outside; and providing biodiversity opportunities via a vertical link between the roof and the ground. This book will appeal to a wide range of readers, from students and practitioners of architecture, landscape architecture, urban planning and ecology, through to members of the community interested in how they can more

effectively use the rooftops and walls of their homes or workplaces to increase green open space in the urban environment.

Urban Microclimate Evyatar Erell, David Pearlmutter, Terence Williamson, 2012-06-25 The quality of life of millions of people living in cities could be improved if the form of the city were to evolve in a manner appropriate to its climatic context. Climatically responsive urban design is vital to any notion of sustainability: it enables individual buildings to make use of renewable energy sources for passive heating and cooling, it enhances pedestrian comfort and activity in outdoor spaces, and it may even encourage city dwellers to moderate their dependence on private vehicles. Urban Microclimate bridges the gap between climatology research and applied urban design. It provides architects and urban design professionals with an understanding of how the structure of the built environment at all scales affects microclimatic conditions in the space between buildings, and analyzes the interaction between microclimate and each of the elements of the urban landscape. In the first two sections of the book, the extensive body of work on this subject by climatologists and geographers is presented in the language of architecture and planning professionals. The third section follows each step in the design process, and in part four a critical analysis of selected case study projects provides a demonstration of the complexity of applied urban design. Practitioners will find in this book a useful guide to consult, as they address these key environmental issues in their own work.

Planting Green Roofs and Living Walls Nigel Dunnett, Noël Kingsbury, 2004 This book introduces a revolutionary new concept to gardeners. Planting on roofs and walls began in Europe, but it is now becoming popular all over the world. Green roofs and walls reduce pollution and run-off, and also help insulate and reduce the maintenance needs of buildings. Planting Green Roofs and Living Walls discusses the practical techniques required to make planting on roofs and walls a reality. It describes how roofs may be modified to bear the weight of vegetation, considers the different options for drainage layers and growing media, and lists the plants suitable for different climates and environments. This informative book will encourage gardeners everywhere to consider the enormous benefits to be gained from planting on their roofs and walls.

Law Reform in Developing and Transitional States Timothy Lindsey, 2007 This informative book examines examples of law reform projects in post-socialist and post-authoritarian states in Asia, identifies common problems, and proposes analytical frameworks for understanding them.

Competition, Corporate Governance, and Regulation in Central Asia Harry G. Broadman, 2000 Like many Central Asian republics, Uzbekistan has adopted a gradual, cautious approach in its transition to a market economy. It has had some success attaining macroeconomic stability, but microeconomic reforms have lagged behind. It is time to accelerate structural reform.
