The Potter's Art Garth Clark, 1995-06-15 The first ever book to provide a comprehensive overview of British pottery, The Potter's Art traces this remarkable history of pottery all the way from the rudimentary pots of the Middle Ages to the sophisticated art of today's studio potters. Beginning with the peasant potter, Garth Clark moves on to describe the development of style and fashion under the notorious Josiah Wedgwood. He also examines the work of the artist-potters William De Morgan and the Martin brothers, and the studio potters Bernard Leach and Lucie Rie. Focusing particularly on the distinctly human angle to the craft, the author brings the potters to life by describing their working conditions, lifestyles and characters. For all collectors and potters, this is an indispensable survey which sheds new light on the history of British pottery. For anyone with a sense of aestheticism or a general interest in the arts, it is an absorbing introduction to perhaps the most fundamental artistic medium in the history of civilization.

Pioneers of Modern Craft Margot Coatts, 1997 Pioneers of modern craft profiles key figures in the history of contemporary twentieth-century crafts. It focuses on the lives and times of prominent individuals who were (or became) influential throughout the pre- and post-war periods in Britain, such as David Pye, Gerald Benney, Gerda Flockinger, Edward Barnsley and William Staite Murray.

Designing Modern Britain Cheryl Buckley, 2007-10-01 British culture is marked by indelible icons—red double-decker buses, large oak wardrobes, and the compact sleekness of the Mini. But British industrial and product design have long lived in the shadows of architecture and fashion. Cheryl Buckley here delves into the history of British design culture, and in doing so uniquely tracks the evolution of the British national identity. Designing Modern Britain demonstrates how interior design, ceramics, textiles, and furniture craft of the twentieth century contain numerous hallmark examples of British design. The book explores topics connected to the British design aesthetic, including the spread of international modernism, the eco-conscious designs of the 1980s and 1990s, and the influence of celebrity product designers and their labels. Buckley also investigates popular nostalgia in recent times, considering how museum and gallery exhibitions have been instrumental in reimagining Britain's past and how the heritage industry has fueled a growing trend among designers of employing images of

British culture in their work. A thoughtful look at the aesthetic heritage of a nation that has left its footprint around the globe, *Designing Modern Britain* will be a valuable text for students and professionals in design.

Human-Animal Relations in Bronze Age Crete Andrew Shapland,2022-05-12 Archaeologists have long admired the naturalistic animal art of Minoan Crete, often explaining it in terms of religion or a love of the natural world. In this book, Andrew Shapland provides a new way of understanding animal depictions from Bronze Age Crete as the outcome of human-animal relations. Drawing on approaches from anthropology and Human-Animal Studies, he explores the stylistic development of animal depictions in different media, including frescoes, ceramics, stone vessels, seals and wall paintings, and explains them in terms of 'animal practices' such as bull-leaping, hunting, fishing and collecting. Integrating zooarchaeological finds, Shapland highlights the significance of objects and their associated human-animal relations in the history of the palaces, sanctuaries and tombs of Bronze Age Crete. His volume demonstrates how looking at animals opens up new perspectives on familiar sites such as Knossos and some of the most famous objects of this time and place.
